

Good morning,

I'm a lifetime Connecticut resident, but more importantly a father contacting you to oppose HB 6355. The grey areas where this can be used as a weapon in itself by someone who may not like you is beyond troubling. I am in support 6491 because as a self defense instructor I hear the stories of crimes happening to GOOD PEOPLE. Just as vast as there are grains of sand there are just as many scenarios where NON LETHAL measures can be taken to prevent an attack.

Thank you,

William Hampton
